

Launch event of the European Innovation Partnership on Smart cities and communities: Leading the way in making Europe's cities smarter, 26 November 2013 in Brussels

Are you interested in smart city concepts and in meeting public and business leaders who are transforming our cities?

On 26 November 2013, the European Commission is organising a conference in Brussels to share and discuss the actions outlined in the "Strategic Implementation Plan" of the Smart cities and communities Partnership and how to put them into practice.

At the conference, the Strategic Implementation Plan and future actions by the Partnership will be presented to a large audience.

You will hear from city leaders, CEOs, civic society leaders and 3 European commissioners about their plans for new investments, innovations and programmes for our cities and communities. The conference also hopes to inspire other organisations to join in and implement the Partnership's actions.
