

Increasing efficiency in goods distribution

CiViTAS
“quotes”

“ Donostia-San Sebastian

implemented a **goods distribution model** that fits the urban reality of the city and reduces negative impacts on the inhabitants and urban space

Measure outcomes:

-0,4 km in journey length

26,849 km/year saved with the use of cargo bikes

+ **23%** in energy savings per year

-**6,800** € operating costs per year
