## Low-carbon economy

Cooperation here addresses the transition to a low-carbon economy in all sectors.

This could be through policies aimed at raising the share of renewable energy sources in the energy mix or promoting sustainable transport.

*e.g.*

- *increasing energy performance of public buildings*
- *promoting alternative mobility behaviour*

# LOW-CARBON ECONOMY

31 IR projects related to low carbon economy focussing on:

- energy efficiency
- energy from renewable sources
- low-carbon innovations
- low-carbon transport and mobility (14 projects) focusing on:
  - planning, policies and strategies (5 projects)
  - promote and increase sustainable mobility (3 projects)
  - specific sectors (3 projects)
  - specific transport modes (3 projects)
