Opportunities to Exchange Replication and Deployment Programme

A journey from challenges to solutions

Europe's cities are laboratories of innovation — but how do we ensure the best solutions don't stop at city borders?

That's the driving question behind the CIVITAS Replication and Deployment Programme — a core asset of the CIVITAS Initiative aiming at transforming individual city successes into shared European progress.

[READ MORE +](#)

"The CIVITAS Replication and Deployment programme offers cities all over Europe the opportunity to tap into the knowledge generated by the CIVITAS Initiative, where municipalities have been testing innovative mobility solutions for more than 20 years."
— Arianna Americo, Former Coordinator at EIT

Thematic scope

Sustainable urban logistics

This theme explored how cities can manage the growing demands of freight and goods movement in a sustainable, efficient, and people-centred manner.

[READ MORE +](#)

Universal design and accessibility

This theme focused on creating urban environments that are inclusive and accessible to all, regardless of age, ability, or background.

Opportunities to Convene Annual Flagship Mobility Conference

The banner features a background image of a waterfront at dusk. At the top, there are three logos: the CIVITAS logo, the European Union flag, and the City of Thessaloniki logo. Below the logos, the text 'Register today' is written in white on a blue background. The main title 'CIVITAS FORUM 2026' is in large, bold, blue letters. Below the title, the dates and location '15-17 September 2026 | Thessaloniki, Greece' are listed. The theme 'Roots & Routes: Moving Forward to Competitive, Connected and Resilient Urban Mobility!' is written in a smaller font. At the bottom, there is a blue bar with the website 'civitas.eu/cf2026' and the hashtag '#CF2026'.

Register today: 15–17 September

4 Lenses

A common framework across all sessions: defining challenges

POLICY

How do policies shape shared mobility? What political trade-offs are involved?

GOVERNANCE

How are shared mobility services regulated and coordinated across actors?

INFRASTRUCTURE

What physical conditions enable or hinder shared mobility? Streets, bike lanes, public space.

BEHAVIOUR

How do users adopt shared mobility? Inclusiveness, accessibility, safety and ease of use.
