CITY AND PORT COOPERATION IN KLAIPEDA

Indre Buteniene
Klaipeda City Municipality

The city of Klaipeda

- 3rd largest city in Lithuania
- Regional business, science, culture, tourism and administration center
- The only Lithuanian port city
- Universal deep-water, ice-free port
- The most important and the largest Lithuanian transport hub connecting sea, land and rail routes, from East to West

CITY AND PORT COOPERATION

- Relation between City and Port were a little bit complicated during PORTIS project;

- Tension between City and Port that occured because of preparation of separate Port and City Master Plans, that used to be one document before and some political reasons;

- Port plans huge infrastructure development in Northern and Southern parts of the Port and City that may cause pollution issues in future

City and Port Cooperation

PORTIS measure 1KLA2 "Establishing City and Port Cooperation Platform"

1KLA2 measure was implemented in the following stages:

Stage 1: 14 SUMP Committee including Port representatives meetings/workshops were organized during March 2017 and April 2018.
