Create an open & neutral platform

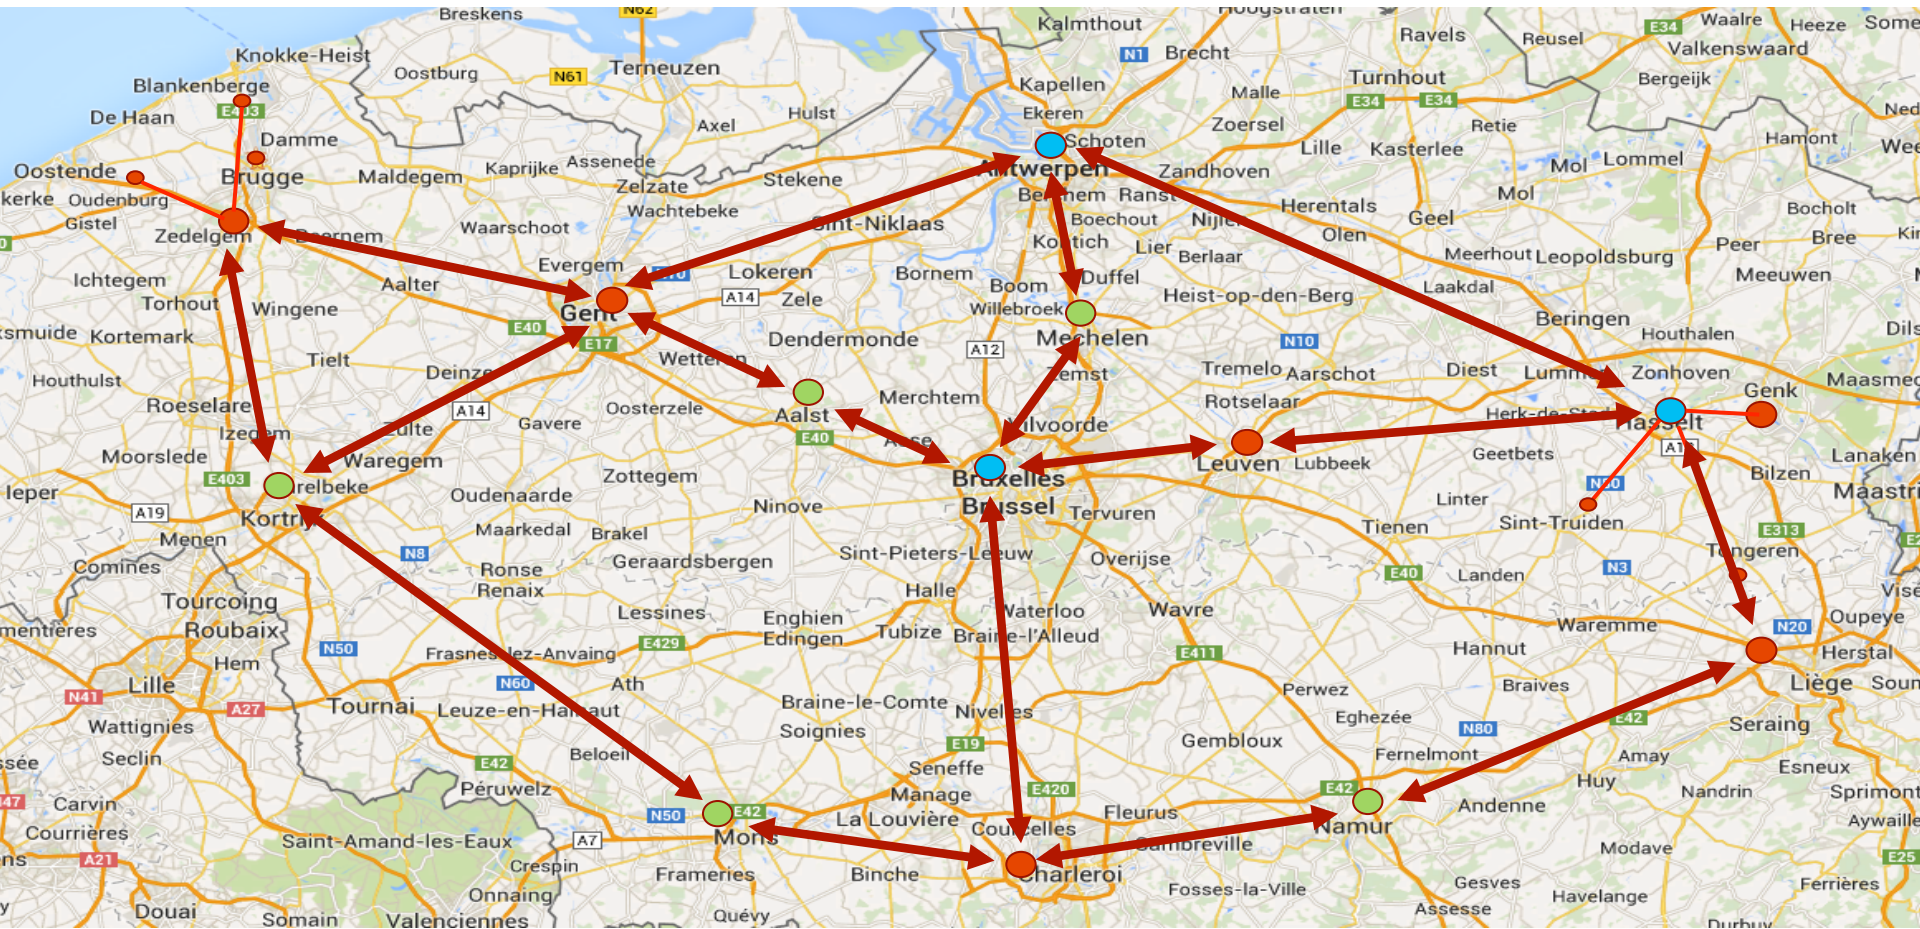

Interfacing existing and futur urban logistics activity in such a way that existing infrastructure and means are used in substantially more efficient ways, generating ecological, social and financial gains for all stakeholders involved.

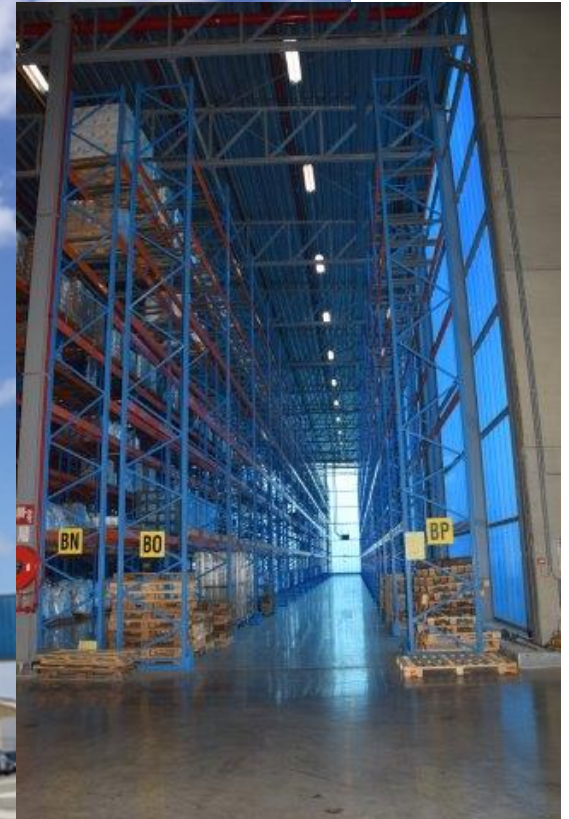

We orchestrate & connect stakeholders

Create a network

Go for true sustainability

Core Services

ECODELIVERY

Eco-deliveries : highly frequent delivery of your goods, in cities, in the most ecological way. We deliver from 2 grams upto 2 tons, XL and all type of freight units (including fresh & frozen – B2B) destination city center.

COMFORT DELIVERY

Comfort delivery: CityDepot is your receiving point for deliveries. We check, control, stock and deliver to your shop, office or client according to your wishes and needs. Fresh, frozen & ambient.

FLEX COLLECT

FlexCollect : city collect service > on demand : with the click of a finger order your collect in a specified time frame within 48 hours. Every day from 9h-20h, we collect your goods and make sure they are shipped through the carriers of your choice.

ACTIVE STOCK MANAGEMENT

Active stock management : make better use of your own space by using stock management space and systems just outside the city, in the CityDepot network. You stay in full control using our stock management platform and can order deliveries when and where you want.

Organize your stock partialy nearby the citycenter and deliver your clients using the advantage of proximity.
