## About CIVITAS

CIVITAS - cleaner and better transport in cities – is a network of cities across Europe dedicated to sustainable urban transport. Launched by the European Commission in 2002, CIVITAS has helped cities to make a significant shift in the modal split towards sustainable transport, by encouraging both innovative technology and policy based strategies. Currently, 58 cities act as „living laboratories' for learning and evaluation and have implemented some 650 practical and policy related measures to green their transport system. These cities are part of a larger CIVITAS Forum Network, which consists of 200 cities committed to sustainable urban mobility. The Network provides a platform for the exchange of ideas and experiences of Europe's leading transport innovators ([www.civitas.eu](http://www.civitas.eu)).

## Location

Senatsverwaltung für Stadtentwicklung und Umwelt Berlin  
Senate Department for Urban Development Berlin and the Environment  
Am Kölnischen Park 3  
D-10179 Berlin
