

**Peer review exercise in San Giuseppe Vesuviano (IT)
29th July 2015**

Introduction

Simone Bosetti, TRT/CIVITAS WIKI

The CIVITAS Initiative

Launched by the EC in 2002 to create cleaner, better transport in cities by:

THE CIVITAS INITIATIVE
IS CO-FINANCED BY THE
EUROPEAN UNION

- Developing, testing and evaluating integrated sets of measures and policies
- Disseminating and further replicating CIVITAS concepts, policies and measures in extra-CIVITAS local contexts.

*In 12 years:
more than 700 measures in more than 60 cities*

**CIVITAS as...
a knowledge hub for sustainable urban mobility**

CIVITAS Thematic Groups: Be part of the CIVITAS community!

What is it about?

- A TG is an **open group** of practitioners working in a specific area of sustainable urban mobility
- There are currently **10 active Thematic Groups** reflecting the CIVITAS thematic categories and covering different topics
- Each group is supported by a thematic **moderator** and has a dedicated section on civitas.eu

What's in it for you?

- **connect with peers** in your field of activity and **get involved in collaborative activities** like *webinars, training workshops, study tours, annual meetings, peer review exercises and policy notes*
- **suggest a topic** of interest, ask for a **peer review of an urban mobility solution**, get **support for organising a training event** in your city, take part in **face-to-face events** in other leading CIVITAS cities

Planning mobility for people

Thematic Moderator
Simone Bosetti

Share your experience
and debate of

- Sustainable Urban Mobility Plans
- Integrated strategies
- Gender sensitive approaches
- ...

**Mobility professionals
working across Europe
(currently 15 core members,
representing EU cities,
and 27 followers)**

4

Starting a SUMP process with a specific focus on resilience!

The Peer Review Exercise

- A **group of experts** from **different cities** working in similar issues **can evaluate local policies, programmes and practices** being implemented in a particular city
- Based on this can give **recommendations** on possible areas of improvement
- The peer-review exercise proposed by CIVITAS WIKI aims at focusing on **key challenges in the implementation of urban mobility policies**, in specific thematic areas and/or on specific initiatives/projects being implemented by host cities
- Today: collecting suggestions and relevant information for the preparatory work needed **to start a SUMP process** with a specific focus on **resilience**
