

## CIVITAS Study Tour – Venice, 15th March 2016

# SUSTAINABLE MOBILITY AT SCHOOLS: FROM PLANNING TO PRACTICE

Not only safe routes to schools, bike/walk to school campaigns and other mobility management initiatives. Within the PUMAS project, the City of Venice has developed a comprehensive strategy for making sustainable mobility an essential element of its urban and educational policy: from the Guidelines for a “shared sustainable school mobility plan” to the certification and labelling system of schools and the active involvement of parents and pupils in transforming both physical places and mobility behaviours.

On **Tuesday 15<sup>th</sup> March 2016** the members of the CIVITAS Thematic Group Safety & Security will learn and debated from the direct experience of Venice city officials and teachers in a study visit to some schools and mobility interventions.

The study tour is organised by CIVITAS WIKI and the Municipality of Venice.

The study tour is **free of charge** and open to all sustainable mobility practitioners and professionals. For a limited number of participants CIVITAS WIKI will co-finance travel and accommodation expenses. Priority will be given to city representatives (up to 2 participants per city).
