CIVITAS Study Tour & Peer Review Workshop  
Donostia-San Sebastian, 14<sup>th</sup>–15<sup>th</sup> October 2015

## GREEN LOGISTICS IN DONOSTIA-SAN SEBASTIAN: DECARBONISING DELIVERIES IN URBAN AREAS

Freight distribution is an increasingly important part of modern city-life. Most of our city centres are highly crossed by freight delivery vehicles and they often cause severe congestion principally due to several stops along the way.

Donostia-San Sebastian re-thought Urban Freight Logistics introducing on one hand some restrictive measures for a more efficient freight distribution and on the other hand new “green” vehicles more suitable for the historical city centre.

The CIVITAS Thematic Group Urban Freight Logistics organizes a Study Tour and a Peer Review Exercise with the main aim to provide to city planners and politicians an overview of a success story on how to develop more sustainable and cost-effective last-mile green delivery

On **Wednesday 14<sup>th</sup> and Thursday 15<sup>th</sup> October 2015** the members of the CIVITAS Thematic Group together with the colleagues attending the European Cycle Logistics Conference 2015 will learn from the Donostia-San Sebastian experience.

The Study Tour is organised by CIVITAS WIKI and Donostia-San Sebastian.

The study tour is **free of charge** and open to all urban freight logistics practitioners and professionals. The event is addressed in particular to cities that have planned or are thinking of implementing more sustainable and cost-effective last-mile green delivery.

For a limited number of participants CIVITAS WIKI will co-finance up to €350,00. Priority will be given to city representatives (up to 2 participants per city).

## Study Tour: Agenda

16:15 – 16:30	<b>Registration &amp; Welcome message</b> <i>Fermin Echarte – Sustainable Transport Manager, Ayuntamiento de San Sebastián</i> <i>Tito Stefanelli, Cosimo Chiffi – CIVITAS WIKI, TRT Trasporti e Territorio</i>
